

A person wearing a red jacket and dark pants stands on a snowy mountain ridge, looking out over a vast, snow-covered mountain range. In the background, a prominent, jagged mountain peak rises above the clouds. The scene is captured in a soft, slightly hazy light, suggesting a sunrise or sunset. The overall mood is one of adventure and achievement.

Migrating From SSRS to Power BI Paginated Reports

Van Steenlandt Olivier

Thank you!

Many thanks to our sponsors, without whom
such an event would not be possible.

Hello!

Itinerary

Current Situation

Data Team

> SQL SERVER

> SSIS

> SSAS

> SSRS

> Power BI

SSRS

- > Pixel perfect / Printable Reports
- > Security Per Folder / Department
- > Linked Reports
- > Shared Datasets
- > Subscriptions

Power BI

> Workspace

> Analytical Reports

Business Users

Example Workspace

+ New
↕ Upload
 Create deployment pipeline

All	Content	Datasets + dataflows	Datamarts (Preview)
Name	Type		
 Sales	Dataset		
 Sales_MeasureTable	Dataset		
 Solution - Sales Dataset	Report		
 Solution - Sales Dataset	Dataset		
 Solution - Sales Report - Thin Report	Report		

Business Challenges

Let's play a game!
Where's the report?

Summary

- > 2 Reporting Platforms
- > Security
- > Data source Maintenance
- > Resource Consumption

Moving Forward

Power BI

Reports

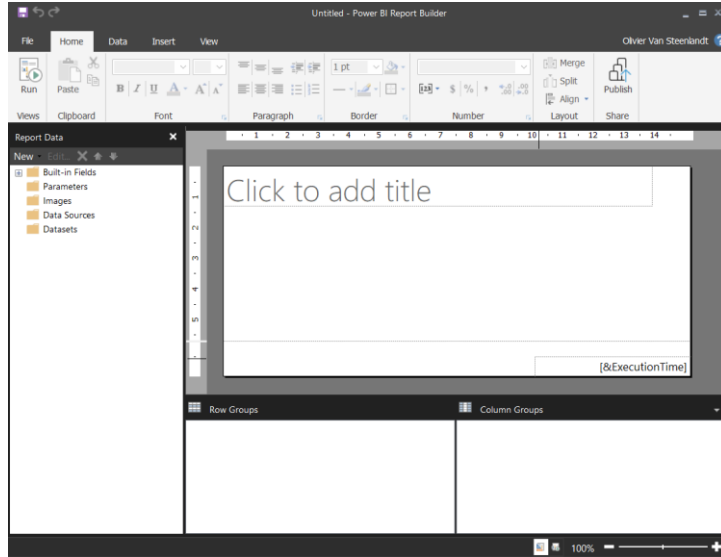

Paginated Reports

● Development Tool

Power BI Report Builder

Power BI Report Builder

- > Created for developers
- > No Solution file
- > No Shared Data sources

Available Data Sources

On-Premise

- > SQL Server
- > SSAS
- > ODBC
- > Oracle
- > Teradata

Cloud

- > Power BI Dataset
- > Azure SQL DB
- > AAS
- > Synapse
- > Dataverse

Expressions

Built-in	Report Builder	Power BI Service
ExecutionTime	Local time	UTC
Report Name	Empty	Report name in Workspace
UserID	NT Account Name	User Principal Name

Power BI Workspace

(Paginated) Reports
> Different Icons

	Name	Type
	RPT0001 - Sales by Category	Report
	RPT0002 - Sales by Sub Category	Report

	Name	Type

Migration

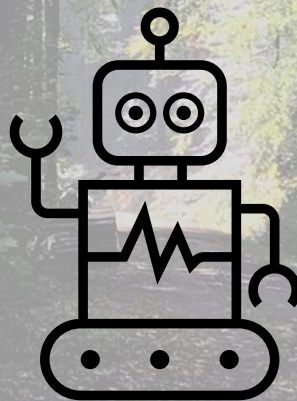

Migration

One-by-one

Automated

One-by-one

1. Locate Rdl-File
2. Open in Power BI Report Builder
3. Change Data Source Connection
4. Execute Report
5. Publish
6. Repeat

One-by-one - Tips

> Data Source Icon changes

> Deploy Subreports first

Automated

> SSRS

> Open-Source Tool

Automated Option 1

> Migration using Publish Button in SSRS

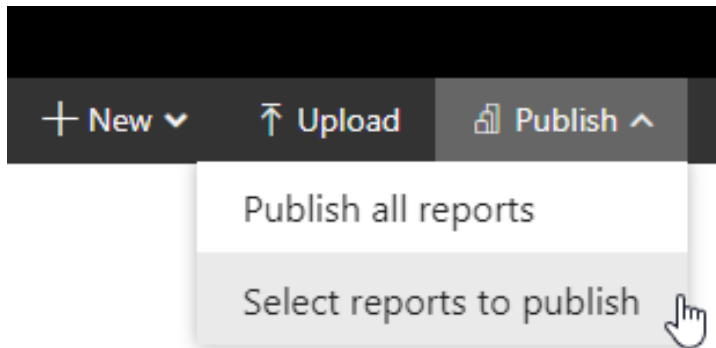

> SSRS Version 15.0.1102.911

→ Not Supported

> SSRS Version 15.0.1102.1047

→ Supported

Automated Option 1

Some reports didn't publish.

Only 3 of 4 were published to Reports.

/Sales/Sales by Category - A report with the same name already exists in the workspace.

[Go to workspace](#)[Check requirements](#)

Automated Option 2

> Rdl Migration Tool (CmdLine)

<https://github.com/microsoft/RdlMigration>

RdlMigration.exe <your Base url endpoint>
<file Path> <WorkspaceName> <client-id>

Automated Option 2

- > App Registration in Azure Portal
- ✓ Read all workspaces
- ✓ Read and write all datasets
- ✓ Read and write all reports

<https://app.powerbi.com/embedsetup>

Automated Option 2

> ConversionLog

```
Starting the log-in window
Log-in successfully, retrieving the reports...
Starting conversion and uploading the reports 29/07/2023 10:44:23
Starting the log-in window
Log-in successfully, retrieving the reports...
Starting conversion and uploading the reports 29/07/2023 10:45:26
SUCCESS : Sales By Category The file is successfully uploaded
SUCCESS : Sales By SubCategory The file is successfully uploaded
```

> Output Folder

-  Sales By Category_convert.rdl
-  Sales By Category_original.rdl
-  Sales By SubCategory_convert.rdl
-  Sales By SubCategory_original.rdl

What about **Subscriptions**
*after migrating from SSRS to
Power BI Paginated Reports?*

“

Demo

*We climbed the mountain
and reached the top
together,
Well done!*

“

Limitations

- > No Linked Reports
- > Disable Subscriptions
- > Subscriptions Not Migrated

Benefits

- > Drill through from Power BI Reports
- > 1 Reporting Environment
- > Power BI Deployment Pipelines

Feedback please!

<https://feedback.dsmuc.de/>

Thank you! Questions?
